After the first 72 arrows archers will be ranked into separate flights based on their total score of 72 arrows

Depending on the number of archers there will be at least 5 archers per flight.

If there is a tie in the ranking of a flight a either shoot off or a coin toss will be called by the judge to determine the archer's rank.

If a shoot off was called closest arrow to the centre wins the match.

Once archers are sorted out into flights, they will be competing against archers of their same capability in their own flights in the next 72 arrows.

There will be no gender or bow type differences in flights and archers do not need to change their shooting targets after first 72 arrows.

Archers in each division of Barebow and Recurve, archers will have to shoot a GOLD only face at 20m and compound archers will have to shoot a GOLD only face at 30m. Only the perfect scores of 10 and Xs will be counted.

Winners of each division shall be determined by the highest scores in their division. If there are ties then the winner will be determined by the highest number of Xs. If there is still a tie then judges will have to call for a tie breaker shoot.
